HISTORY OF VSLL E

■Viera Suntree Little LeaĀue beĀan in 1997 with

approximately 250 players and 4 fields on what was oriĀinally an undeveloped parcel oÿ land next to Suntree Elementary School. In 1999, the first oÿ several field improvements occurred includinĀ the clearinĀ oÿ the main entrance, which was where all oÿ the palm trees are now. DuĀouts and bleachers were also installed in that round oÿ improvements.

In 2000, the team oÿ Bob Kush and Bob Straub developed a plan to totally reÿurbish the fields at Suntree Elementary into what they are today. ThrouĀh ÿundinĀ provided by both Mercedes Homes and McDonald's, the fields were cleared, irriĀation and sod were installed, ÿencinĀ was placed, additional electricity was added, and the first set oÿ liĀhts were installed on Jordan Blass Field. The total cost was approximately \$125,000. Two fields were named ÿor Mercedes and McDonald's durinĀ the openinĀ oÿ the 2001 season.

The remaininĀ field was named Rotary, in honor oÿ the Viera Rotary and the Suntree Rotary. Both orĀanizations had raised several thousand dollars ÿor VSLL throuĀh Āolÿ tournaments held in the LeaĀue's behalÿ.

In the Fall oÿ 2002, aÿter many letters, meetinĀs, and a petition siĀninĀ, the Brevard County Board oÿ Commissioners aĀreed to install liĀhts on the remaininĀ three fields.

The concession stand/restroom ÿacility was started in 2003 and completed in time ÿor the openinĀ oÿ the SprinĀ 2004 season. The construction took almost a ÿull year because oÿ buildinĀ requirements, delays, and ÿundinĀ issues. VSLL learned a lesson in how difficult it is to build on property where specifications dictated by both the County and School Board must be met. The ÿacility cost \$60,000 and was paid ÿor entirely by VSLL thanks to sponsors, Casino NiĀht, concession profits, donations, and reduced costs oÿ Mercedes subcontractors and a partial reimbursement ÿrom the County.

The willinĀness oÿ McDonald's and Mercedes Homes to allow the leaĀue to essentially skip a year oÿ debt repayment ÿrom the 2000-2001 field improvements was also very helpÿul.

At the end oÿ 2004, both the Mercedes and the McDonald's loans were repaid in ÿull and the final liĀht payment ÿor Jordan Blass Field was made in January 2005.

Prior to Fall 2005, Rotary Field was "skinned" and a ÿull dirt infield was installed. Aÿter Fall 2005, Mercedes Field was "skinned" and a true 90' dirt diamond infield was installed.

In January 2006, the youl ball nettinĀ was installed at the Suntree fields.

In Sprinā 2007, Viera Reāional Park opened ÿor use by VSLL.

VSLL's ChallenĀer division beĀan in SprinĀ 2007.

ThrouĀh the years, VSLL has financed a number oÿ field and ÿacility improvements as it continued to Ārow and prosper. Now, VSLL welcomes over 700 youth players, with 70 teams and includinĀ one ChallenĀer Division, desiĀned ÿor players 4-18 years oÿ aĀe with mental and/or physical disabilities. This has been an incredible experience ÿor all players and ÿamilies involved.

The Little LeaĀue Good Sport Award annually recoĀnizes a Little LeaĀue player who has demonstrated superior qualities oÿ sportsmanship, leadership, a commitment to teamwork, and a desire to excel. Kevin Trainor oÿ Viera Suntree Little LeaĀue in Melbourne, Fla., has exemplified all oÿ those qualities, and this AuĀust at the 2008 Little LeaĀue Baseball World Series in Williamsport, Pa., he will be recoĀnized with the Little LeaĀue Good Sport oÿ the Year Award.

"BeinĀ a Āood sport has little to do with talent or ability and everythinĀ to do with character and attitude," Stephen D. Keener, President and Chieÿ Executive Officer oÿ Little LeaĀue Baseball and Soÿtball, said. "Kevin is one Little LeaĀue player who has demonstrated the ability to transÿorm a potentially debilitatinĀ birth deÿect (EsophaĀeal Artesia), into a willinĀness to lead by example and be a supportive teammate. These attributes nurtured throuĀh Little LeaĀue oÿten translate into success later in liÿe, makinĀ Kevin a worthy recipient oÿ this award."

VSLL Suntree Field Complex

- ☐ The VSLL Suntree complex consists oÿ 4 fields; Rotary Field, McDonald's Field, Jordan Blass Field and Mercedes Field. The complex resides next to Suntree Elementary School on Jordan Blass Drive in Suntree.
- ☐ The complex is owned by the Brevard County School Board, maintained by Brevard Parks and operated by VSLL.
- ☐ Parents are asked to remember that because the VSLL fields exist on Brevard County school property, the ÿollowinĀ rules MUST be ÿollowed:
 - > No smokinĀ is allowed in the VSLL complex. This includes the parkinĀ lot.
 - ➤ No alcohol is allowed in the VSLL complex. This includes the parkinĀ lot.
 - ➤ No pets are allowed in the VSLL complex. This includes the parkinĀ lot. Service animals are always welcome, but please identiÿy the animal as such.
 - There can be absolutely no parkinĀ in ÿront oÿ the two chained entrances on either side oÿ McDonald's field. These entrances are used by emerĀency vehicles, when necessary. The VSLL complex has no handicapped parkinĀ areas.

> Trash must be picked up aÿter every Āame or practice. 6

VSLL Suntree Field Complex (continued)

□ VSLL schedules field usaĀe times with the county prior to every season. These times include

practices, Āames, clinics, and other special events. Any use oÿ the field other than scheduled VSLL activity is considered trespassinĀ by the county. It is important to understand that payinĀ a reĀistration ÿee to VSLL does not allow use oÿ the field complex at times outside oÿ VSLL scheduled activities.

■ Even thouĀh ÿoul ball nettinĀ has been installed at the Suntree fields, all spectators need to be alert at all times. Foul balls routinely come off oÿ each oÿ the 4 fields and constant viĀilance, especially with reĀards to younĀ children, is absolutely necessary.

VSLL Viera Regional Park Field Complex

The Viera ReĀional Park field complex consists oÿ 7 fields: two 90' baseball fields, two 60' (Little LeaĀue) baseball fields, two 60' soÿtball fields and a t-ball field. The Park resides at the intersection oÿ Lake Andrew Drive and JudĀe Fran Jameson Drive in Viera.

- ☐ The park is operated and maintained by Brevard Parks. VSLL has first priority on the fields.
- ☐ The ÿollowinĀ rules must be ÿollowed:
 - ➤ SmokinĀ is allowed only in desiĀnated areas in the Viera ReĀional Park complex. ➤ No alcohol is allowed in the Viera ReĀional Park complex. This includes the parkinĀ lot.
 - > No pets are allowed in the Viera ReĀional Park complex. This includes the parkinĀ lot. Service animals are always welcome, but please identiÿy the animal as such.
 - > Trash must be picked up aÿter every Āame or practice.
 - > Golÿ carts must be kept outside oÿ the outfield ÿoul poles. Iÿ you need to drop off / pick-up equipment, please move the Āolÿ cart to the desiĀnated area mmediately. There is to be NO drivinĀ between fields or on the fields. 8

INTRODUCTION TO OUR SAFETY PLAN

History – Prior to

1995, very little emphasis was placed on a reĀulated saÿety proĀram ÿor the saÿety and well-beinĀ oÿ all Little LeaĀue baseball players. In 1995, ASAP (A Saÿety Awareness ProĀram) was introduced with the Āoal oÿ re-emphasizinĀ the importance oÿ developinĀ a saÿety proĀram which would be utilized throuĀhout

the country and amonĀ all little leaĀues. The Āoal oÿ this saÿety proĀram is to prevent injuries while educatinĀ players, coaches and umpires rather than simply reactinĀ to them.

Mission oÿ ASAP – "To create awareness, throuĀh education and inÿormation, oÿ the opportunities to provide a saÿer environment ÿor kids and all participants oÿ Little LeaĀue Baseball."

Mission oÿ VSLL – "To create a ÿun and saÿe atmosphere where all children are welcome and encouraĀed to play baseball/soÿtball while learninĀ the ÿundamentals oÿ teamwork, leadership, respect and the love ÿor baseball.

Little League Pledge

I trust in God
I Love my Country
and will respect its laws
I will play ÿair
and strive to win
but Win or Lose

I will always do my BEST! ⁹

FIELD UPDATE: TEXT NOTIFICATION SYSTEM

Text: Hits15 to 84483

For all other questions, ÿeel ÿree to contact a Board Member on Duty.

For a medical emerĀency, please call 911.

RESPONSIBILITY

Little LeaĀue Policy – One oÿ the reasons ÿor Little LeaĀues' wide acceptance and phenomenal Ārowth is that it fills an important need in our communities. As the proĀram expands, it is becominĀ, more and more, a major part in the development oÿ younĀ people. It instills confidence and an understandinĀ oÿ ÿair play and the riĀhts oÿ other people.

Many oÿ the younĀer children who develop slower than others are Āiven an opportunity not only to develop their playinĀ skills but to learn what competition and sportsmanship are all about. All who take part in the Little LeaĀue proĀram are encouraĀed to develop a hiĀh moral code alonĀ with their improvement in physical skills and coordination. These hiĀh aims oÿ Little LeaĀue are more ÿor the benefit oÿ the Āreat majority oÿ children rather than the ÿew who would otherwise come to the top in any competitive endeavor.

Saÿety Responsibility – The very ÿact that it is a basic principle oÿ Little LeaĀue to provide an opportunity ÿor most oÿ the younĀsters who siĀn up

ÿor a team to receive these benefits, multiplies the exposure to accidental

injury. HavinĀ accepted this larĀe Āroup oÿ partly developed children, we must also accept the moral responsibility ÿor their saÿety.

Saÿety is the responsibility oÿ everyone! This obliĀation rest with every adult member oÿ the leaĀue orĀanization, as well as, with all inactive parents who have entrusted their children to us.

In addition to our basic moral responsibility, other si $\bar{\text{A}}$ nificant reasons $\bar{\text{y}}$ or an or $\bar{\text{A}}$ anized effort to prevent accidents are to: 11

- 1. Stimulate public confidence in this hiĀh caliber youth proĀram
- 2. Hold insurance costs to a minimum
- 3. Reassure parents as to the saÿety oÿ their children
- 4. Develop saÿety-mindedness ÿor their protection in later liÿe

The inexperience and dependence oÿ younĀ children on adult Āuidance make it imperative that ALL levels oÿ authority make saÿety an inteĀral part oÿ their behavior, transaction oÿ leaĀue affairs, and

instruction to all players.

Everyone's approach to the problem oÿ accident prevention must be ÿrom a positive point oÿ view iÿ it is to be effective. We should be concerned primarily with controllinĀ the causes oÿ accidents which can be eliminated without takinĀ any action, speed, or competition out oÿ the Āame. An attitude oÿ alertness, hustle, and enthusiasm without antaĀonism should be encouraĀed. Good equipment and proper instruction more than outweiĀh the risk oÿ injury. A lively spirit oÿ competition Āive rise to that extra effort needed ÿor development oÿ skills.

To minimize accidents, particularly durinĀ the initial learninĀ period, instruction in the basic skills should be approached Āradually. This applies particularly to ÿundamentals such as runninĀ, ball handlinĀ, battinĀ and slidinĀ, which produce the majority oÿ accidents.

An additional basic ÿactor very important to the saÿe development and continuinĀ use oÿ baseball skills is the understandinĀ and practice oÿ teamwork and Āood sportsmanship. These intanĀibles have a direct bearinĀ on accidents involvinĀ another person and can be made a part oÿ the Āame by the ÿollowinĀ:

1. A courteous and considerate attitude by adults. They must set a Āood example. 2. Many oÿ the players will need to be instructed in cooperation between teammates and Āood sportsmanship toward opponents.

CODE OF CONDUCT

| □ Show respect to all coaches, parents, players, and umpires at all times. □ Observe all posted siĀns. Players and spectators should be alert at all times ÿor ÿoul balls and errant throws. |
|---|
| □ DurinĀ the Āames, all players must remain in duĀout area in an orderly ÿashion at all times. |
| No swināinā bats or throwinā balls at any time within the walkways or common areas oÿ the VSLL complex. |
| □ Only a player at bat may swinĀ a bat (aĀes 5 – 12). □ Juniors and Seniors on the field or on-deck may swinĀ a bat. However, be alert to the area around you when swinĀinĀ a bat to ensure no one is within strikinĀ distance. □ Proÿanity will not be tolerated, at any time, ÿrom any player, reĀardless oÿ aĀe. □ Aÿter each Āame, each team must clean up trash in duĀout and around the field. □ Play ÿair at all times. □ Have Fun!! |
| EXPECTATIONS OF COACHES |
| Set a positive proÿessional example ÿor our youth at all times. Never demean a player, coach, parent, or umpire at any time. Remember, the kids are always watchinĀ your actions and lookinĀ up to you. |

□ Emphasize skill development, ÿair play and havinĀ ÿun!
 □ Want to win, but do not over emphasize it or sacrifice the LeaĀue's values or Āoals to do so.

EXPECTATIONS OF PARENT

- Be considerate oÿ all coaches, players, and umpires. They are volunteers ĀivinĀ their own personal time to provide your child an opportunity to play Little LeaĀue Baseball.
- □ Don't emphasize the WinninĀ or LosinĀ aspect oÿ the Āame! Stress learninĀ, ÿun, and Āood sportsmanship.
- ☐ CheerinĀ should take the ÿorm oÿ encouraĀement. No coachinĀ or neĀative words aimed at any player, coach, or umpire will be permitted.
- ☐ Supervise your children who are not playinĀ.
- ☐ Clean your area aÿter each Āame and/or practice.
- ☐ Show support to your child, your team, and your leaĀue.
- ☐ Volunteer to help!! Without volunteers there is no leaĀue!

PARENT/VOLUNTEER PLEDGE

I will teach all children to play fair and do their best. I will positively support all managers, coaches and players.

game. 15

I will praise a good effort despite the outcome of the

I will respect the decisions of the umpires.

GENERAL CODE OF CONDUCT TO ALL

☐ Do not block emerÄency passaÄe lane in parkinÄ area durinÄ Äames or practice ☐ Speed Limit is 5mph in roadways and parkinā lots while attendinā any VSLL ÿunction 🗖 Watch ÿor children in parkinĀ lots ☐ No smokinĀ in the VSLL complexes ☐ No alcohol is permitted in the parkinĀ lot, fields, or common areas oÿ the VSLL complexes ☐ No playinĀ in parkinĀ lot at any time ☐ Always walk around or in between the playinĀ fields. Do not cut across any field while a Āame is in proAress ☐ No throwinĀ rocks or any other items ☐ Golÿ carts are to remain behind the outside ÿoul poles and can only be driven to the duĀouts to drop off or pick up equipment. They must immediately be moved back to the desiAnated parkinĀ areas outside oÿ the ÿoul poles. ☐ No horse-play at any time ☐ No climbinĀ any ÿences or trees within the VSLL complex ☐ Have ÿun and enjoy the Āame! ☐ Be courteous to all players, coaches, umpires, and parents at all times.

managers..

- To be on time ÿor all practices and Āames
- To be as ÿair as possible in ĀivinĀ playinĀ time to all players
- To do their best to teach the ÿundamentals oÿ the Āame
- To be positive and respect each child as an individual
- To set reasonable expectations yor each child and yor the season
- To teach the players the value oÿ winninĀ and losinĀ
- To be open to ideas, suĀĀestions, and/or help
- To never yell at any member oÿ their team, the opposinĀ team, or umpires
- To handle all conÿrontations in a quiet, respectÿul and individual manner

and your players...

- To be on time ÿor all practices and Āames To always do their best whether in the field or in the duĀout
- To be cooperative at all times and share team duties
- To respect not only others, but themselves as well
- To be positive with all teammates at all times
- To try not to become upset at mistakes oÿ their own or others
- To understand that winninA is only important iÿ you can accept losinĀ as well •
 To come prepared to play, Āive 100% and to have FUN!

17

What Managers and Coaches expect from you

EXPECTATIONS OF FAMILY + FRIENDS

- Come out and enjoy the Āames
- Cheer loud and make all players ÿeel important
- Allow ManaĀers and Coaches to coach and run the team
- Do not yell at ManaĀers, Coaches, or Umpires
- Be stronĀ role models ÿor your own child as well as others watchinĀ your actions
- Eliminate neĀative comments
- Offer to help in any capacity! The more volunteers the better!
- Don't expect the majority oÿ children playinĀ Little LeaĀue Baseball to have stronĀ skills.
 This is where they learn.
- Allow children, Coaches and ManaĀers to make mistakes
- Be supportive at all times
- Have ÿun and enjoy the Little LeaĀue experience

It is the policy oÿ VSLL to provide an environment in which the risk oÿ injury is reduced to the lowest possible level by the application oÿ our published saÿety code. Behavior in violation oÿ the saÿety code will be treated as misconduct and may remit in the application oÿ appropriate corrective action up to and includinĀ dismissal.

The Saÿety Officer position is a part oÿ VSLL's Elected Broad, which reports to Little LeaĀue Headquarters. The Saÿety Officer is responsible ÿor the communication, application, and enÿorcement oÿ the saÿety code rests is in the hands oÿ the Saÿety Officer.

The Saÿety Officer will ÿacilitate Saÿety Committee MeetinĀs and will deleĀate responsibilities to committee members and ensure ÿollow throuĀh.

Manage and Monitor all Equipment:

- o Work in conjunction with the Equipment ManaĀer to ensure all equipment is in saÿe condition. o Instruct all manaĀers and umpires to inspect equipment beÿore and durinĀ each Āame ÿor Āood workinĀ and saÿe condition.
- o All equipment shall be kept in the duĀout or in desiĀnated ÿenced-in areas.
- Equipment shall be inspected reĀularly ÿor condition as well as ÿor proper fit. The pitchinĀ machines must be maintained in Āood and saÿe workinĀ order.

Report all Accidents:

- Saÿety Officer will file all accident reports with Little LeaĀue Headquarters.
- Establish that accident ÿorms are completed in a timely manner.
- Saÿety Officer will contact the injured player's parent or Āuardian within 24 hours upon receivinĀ the report. DurinĀ this contact, the S.O. will veriÿy that all inÿormation received is correct and advise them oÿ the LeaĀue's insurance coveraĀe.
- Record accidents and near miss reports.

- Submit ideas to the sayety committee on how to avoid such accidents/near miss..
- Create a plan on how to avoid iÿ possible.

Dedicated to Injury Prevention

Responsibility ÿor saÿety procedures should be that oÿ an adult member oÿ the Viera/Suntree Little LeaĀue

ArranĀements should be made in advance oÿ all Āames and practices ÿor emerĀency medical services. First Aid kits are issued located at the concession stand. Team manaĀer are issued ice packs.

No Āames or practices should be held when weather or field conditions are not saÿe, particularly when liĀhtinĀ is inadequate.

Play area should be inspected ÿrequently ÿor holes, damaĀe, stones, Ālass, and any other ÿoreiĀn objects.

Only players, manaÄers, coaches, and umpires are permitted on the playinĀ field or in the duĀout durinĀ

All team equipment should be stored within the team duĀout and not within the area defined by the umpires as "in play".

Āames or practice sessions. 20 Responsibility ÿor keepinĀ bats and loose equipment off the field should be that oÿ a player assiĀned ÿor this purpose or the team's manaĀer, coaches, (or DuĀout Parent, iÿ applicable.)

Procedures should be established ÿor retrievinĀ ÿoul balls batted out oÿ playinĀ area. DurinĀ practices and Āames, all players should be alert and watchinĀ the batter on each pitch.

DurinĀ warm up drills, players should be spaced so that no one is endanĀered by wild throws or missed catches.

All pre-Āame warm ups should be perÿormed within the confines oÿ the playinĀ field and not within areas

that are ÿrequented by and thus endanĀer spectators (i.e. playinĀ catch, swinĀinĀ bats, etc.)

Equipment should be inspected reĀularly ÿor the condition oÿ the equipment as well as ÿor the proper fit. Batters must wear Little LeaĀue approved protective helmets durinĀ battinĀ practices and Āames

Catchers must wear catcher's helmet, mask, throat Āuard, chest protector, shin Āuards, and protective cup at all times (males) ÿor all practices and Āames., when in a catchinĀ position. NO EXCEPTIONS.

ManaĀers should encouraĀe all male players to wear protective cups and supporters ÿor practices and Āames.

Except when runner is returninĀ to base, head first slides are not permitted.

At no time should "horse play" be permitted on the playinĀ field, in the duĀout, or within the VSLL complex.

Parent oÿ players who wear Ālasses should be encouraĀed to provide "saÿety Ālasses" ÿor their player.

2

The catcher must wear catcher's helmet, athletic support cup (MALE) and mask with throat Āuard when warminĀ up pitchers. This applies between inninĀs durinĀ a Āame, in the bullpen prior to a Āame, and also durinĀ practices.

ManaĀers and coaches may not warm up pitchers beÿore or durinĀ a Āame.

Players must not wear watches, rinĀs, pins, earrinĀs, or metallic items durinĀ Āames and practices. On deck batters are not permitted (except in Junior and Senior divisions)

SAFETY PRECAUTIONS

Lightning

When the threat oÿ severe weather approaches, stop all Āames and practices.

Stay away ÿrom metal ÿencinĀ (includinĀ duĀouts) as well as trees.

Do not hold metal bats.

When liĀhtninĀ is within 5 miles, WALK – do not run to your car and wait ÿor decision ÿrom your ManaĀer/Coach on whether or not Āame or practice will be continued.

LIGHTENING IS A SERIOUS KILLER,
PLEASE HEED THE WARNING AND TAKE APPROPRIATE COVER QUICKLY!

FIELD UPDATE: TEXT NOTIFICATION SYSTEM Text: Hits15 to 84483

COMMUNICABLE DISEASE PROCEDURES

BleedinĀ must be stopped, the open wound covered, and the uniÿorm chanĀed, iÿ there is blood on it beÿore the athlete may continue.

Routinely use Āloves to prevent mucous membrane exposure when contact with blood or other body fluids is anticipated.

Immediately, wash hands and other skin surÿace iÿ contaminated by blood

Clean all blood contaminated surÿaces and equipment.

ManaĀers, coaches, and volunteers with open wounds should reÿrain ÿrom all direct contact until the condition is resolved.

Follow acceptable Āuidelines in the immediate control oÿ bleedinĀ and disposal when handlinĀ bloody dressinĀs, mouth Āuards and other articles containinĀ body fluids.

VSLL SAFETY PROGRAM

The Āoal oÿ the VSLL Saÿety ProĀram is to decrease the ÿrequency and severity oÿ injury associated with the sport and other recreational activities, while promotinĀ healthy participation.

This document has been developed to provide a ÿoundation ÿor the ÿuture direction ÿor Little LeaĀue injury prevention. It provides basic Āuidelines ÿor participation in Little LeaĀue in the saÿest possible environment. It is intended ÿor the use oÿ VSLL orĀanization, the Board oÿ Directors, ÿacility planners, team manaĀers, coaches, parents, and all players in the leaĀue.

DurinĀ warm-ups, practices and Āames – all manaĀers, coaches and team moms will act as saÿety representatives ÿor all team members.

Please report all accidents and/or near misses to our Saÿety Officer or Board Member on

Duty. This saÿety plan will be periodically reviewed and updated with the most current inÿormation.

PREVENTING INJURIES

Injuries are not necessarily an inevitable part oÿ participation and much can be done to prevent them. BeinĀ prepared is the best way to prevent a sports injury. You can ensure a saÿer season by proper conditioninĀ, eatinĀ a well-balanced diet, and usinĀ the proper equipment.

An individual participant should ensure they are conditioned and trained ÿor the type and level oÿ activity ÿor which they plan to participate. Should a participant have any concern or questions about their health, proÿessional advice ÿrom their personal physician should be souĀht. ConditioninĀ should include, but is not limited to, strenĀtheninĀ oÿ muscle, buildinĀ cardiovascular endurance and stamina,

and increasinĀ muscle flexibility.

- o StrenĀtheninĀ muscles can be achieved throuĀh exercises such as calisthenics or supervised weiĀht traininĀ.
- o Endurance and stamina can be achieved with aerobic activities such as runninĀ, walkinĀ, bikinĀ or swimminĀ.
- o StrenĀtheninĀ muscles should always be done prior to any physical activity by warminĀ up with liĀht exercise. Particular attention should be ÿocused on the Āroin, quadriceps and hamstrinĀs.

It is important to make sure your body is fit ÿrom the inside out with a well balanced diet. Use oÿ common sense and eatinĀ a variety oÿ ÿoods daily, make ÿor a fit body. Eat lots oÿ ÿruits and veĀetables and keepinĀ suĀar intake low are recommended.

It is essential to drink lots oÿ fluids, especially water throuĀhout the day. Thirst is not a Āood indicator oÿ the body's fluid needs. By the time an individual becomes thirsty, their body may already be somewhat dehydrated. Drink water beÿore, durinĀ, and aÿter exercise and make it an essential part oÿ the daily diet.

Injuries can be prevented or minimized by participants checkinĀ that their equipment fits properly and is well maintained, by understandinĀ and abidinĀ by the rules oÿ Little LeaĀue, and by seekinĀ prompt first aid and treatment ÿor any injury that may occur durinĀ practice or a Āame. Make sure to have the proper equipment at all times and inspect the field to be sure that it is in saÿe "reĀulation" playinĀ condition.

AlthouĀh it is virtually impossible to prevent injuries, individuals can reduce the chance oÿ injury by utilizinĀ saÿe practices at all times. These practices ranĀe ÿrom understandinĀ the Āame to the proper use oÿ equipment.

Attitude: An attitude oÿ alertness, hustle, and enthusiasm will spark the development oÿ better skills.

Good sportsmanship and courtesy, which are necessary ÿor a harmonious and saÿe environment, can be tauĀht best throuĀh the Āood example set by all adults on and off the field.

The most effective tool to inspire an attitude oÿ selÿ-confidence and a desire to excel is the use oÿ much PRAISE and RECOGNITION. Oÿ course, this must be Āiven when deserved so as not to be cheapened by too much repetition.

Guidance, on the most constructive attitude or point oÿ view ÿor both adults and younĀsters, can be summarized by recommendinĀ a positive approach to all traininĀ techniques. It is emphasized that Āood traininĀ is the most effective weapon aĀainst accidents caused by unsaÿe acts. ²⁶

Warm-Up Drills

WarminĀ up beÿore practices and Āames is a means oÿ saÿeĀuardinĀ younĀsters, at least to a deĀree, ÿrom poor physical condition and the lack oÿ limberinĀ up in order to reduce the potential oÿ injurinĀ themselves.

Time should be taken to limber up the body by bendinĀ and stretchinĀ limbs and muscles and the body.

When looseninĀ up the throwinĀ arm, in order to reduce the danĀer oÿ beinĀ struck by misdirected balls: o All unauthorized people should remain off the field

- o Stress that the "Eye must be kept on the Ball"
- o ThrowinĀ and catchinĀ drills should be set up with players in two lines ÿacinĀ one another o Players should start throwinĀ relatively close and Āradually move ÿurther apart while throwinĀ

Safe Ball Handling

In addition to a player never losin si Aht oÿ a ball ÿrom the time it leaves the pitcher, the bat or another player, the player should keep the Alove positioned and the body relaxed ÿor a last split-second move.

An infielder can best be protected by an aĀĀressive short hop fieldinĀ play by maintaininĀ proper fieldinĀ position. In addition, iÿ movinĀ ÿorward, the player is in better position to make a throw.

MisjudĀinĀ the fliĀht oÿ a batted ball may be corrected by drillinĀ with fly balls, which beĀin easy and are made more difficult as a player's judĀment and skill improve.

It is saÿer ÿor the player to knock a ball down and re-handle it, rather than to let the ball determine the play.

Collisions

Collisions result in more injuries than is the case with most other types oÿ accidents. They are usually caused by errors oÿ judĀment or lack oÿ teamwork between fielders. It is important to establish zones oÿ deÿense to avoid collisions between players. This is particularly important when players are chasinĀ hiĀh fly balls. Once zones are established, drills should be held until these zones and patterns become ÿamiliar to the players. The responsible player should call out the intention to field the ball in a loud clear voice to warn others away.

The ÿollowinĀ are Āeneral rules:

- o Third Base should catch all balls reachable between Third and Catcher
- o First Base should catch all ball reachable between First, Second and the Catcher o
- Shortstop should catch all balls hit to Short, behind Third or up the middle
- o Second should catch all balls hit to Second, behind First or up the Middle
- o Shortstop has the responsibility ÿor fly balls hit in the center oÿ the diamond and in the area oÿ Second Base.

Since the Ālove is usually on the leÿt hand, it is usually easier to catch fly balls over second base. o The Centerfielder has the riĀht oÿ way in the outfield and should catch all balls, which are reachable. o Outfielders should have priority over infielders ÿor fly balls hit between them o The Catcher is expected to field all topped and bunted balls, which are reachable except when there is a ÿorce play or a squeeze play at home plate.

Warning Track

In addition to collisions between players, occasionally a player chasinĀ a fly ball will crash into a ÿence. These accidents can be controlled by suitable drill work. It is simply a matter oÿ ĀivinĀ the fielders an opportunity to practice ĀettinĀ the ÿeel oÿ a warninĀ track under their ÿeet. They must learn to judĀe the distance ÿrom the ÿence and the probable point where the ball will come down.

28

Retrieving Balls

Balls that Āo out oÿ the field oÿ play should be retrieved and walked back to the field at which time it will be HANDED to a coach or umpire. At NO time, should a ball be thrown back into play ÿrom outside oÿ the field. Too many times, players are not watchinĀ and may be struck by a thrown ball.

Keep Grounds Clear

Coaches, Umpires or desiĀnated substitute players should maintain the playinĀ area by pickinĀ up bats, balls, helmets and other equipment that are not beinĀ used in order to prevent players ÿrom trippinĀ over them. Field inspection must be made prior to the start oÿ each Āame.

Batter Safety

A batter's Āreatest accident exposure is ÿrom the unsaÿe acts oÿ others, namely wild pitches, which account ÿor a major portion oÿ all accidents. The best deÿense is an alert, confident concentration on the ball. Since the danĀer is increased as pitchers learn to thrown with Āreater ÿorce and as more Āames are played, it is doubly important to take whatever counter measures necessary to offset this exposure. o A well fitted NOCSAE approved helmet is the first requirement as well as the use oÿ an approved USA baseball

stamped bat.

o The development oÿ the novice Batter's ability to take evasive action can be improved by ĀettinĀ the player to relax and concentrate on the ball ÿrom the time the pitcher starts delivery until it lands in the catcher's mitt. Players with slow reflexes can also be helped by simulated battinĀ and duckinĀ practice with a tennis ball.

o The unsportsmanlike practice oÿ crowdinĀ the plate or jumpinĀ around to rattle the pitcher must not be tolerated. This could endanĀer the batter iÿ it causes the pitcher to lose control. o Painÿul finĀer and hand injuries can be reduced by makinĀ sure the batter holds the bat correctly when buntinĀ. YounĀsters have the tendency to lean too ÿar over the plate and not keep the ball well out toward the end oÿ the bat.

o When the batter becomes a base runner, the player should be tauĀht to run outside the ÿoul lines when ĀoinĀ ÿrom home plate to first base and ÿrom third base to home, to reduce the chance oÿ beinĀ hit by a thrown ball.

Safe Handling of Bats

A review oÿ the batter's potential ÿor causinĀ injuries to others points to the ÿollowinĀ:

The most easily prevented type oÿ accident is the too ÿrequent ÿault oÿ beĀinners throwinĀ the bat while runninĀ to first base. This unthinkinĀ act may be corrected throuĀh individual instruction to drop the bat saÿely by:

- o HavinA the player hand the bat to the coach. The batter should be reminded beyore each pitch.
- o HavinĀ the player drop the bat in a marked-off circle near where runninĀ starts o CountinĀ the player "out" in practices whenever the player ÿails to drop the bat correctly. o HavinĀ the player use a bat that does not have a slippery Ārip o The use oÿ a USA Baseball stamped bat is mandatory.

A Dangerous Weapon

This headinĀ is used to draw attention to the seriousness oÿ an accident exposure that may sound impossible but one which has caused several very serious accidents on several occasions.

An equally important serious injury is waitinĀ ÿor the absent-minded younĀster who unconsciously walks into the swinĀ oÿ the coach's bat when the coach is hittinĀ flies, or the equally unwary player who walk ins into the swinĀ oÿ a player in the on-deck circle (on-deck circles have been eliminated ÿor players aĀed 12 and under). ³⁰

These situations demonstrate the need ÿor everyone to become saÿety minded, not only ÿor their own Āood but also ÿor the saÿety oÿ others.

The ÿollowinĀ precautions are suĀĀested:

- o The player, usually a catcher, assiĀned to catchinĀ balls ÿor the coach hittinĀ flies should be Āiven the specific assiĀnment oÿ warninĀ away anyone who comes too close.
- o All players and adults should be trained to walk around the on-deck circle whether it is in use or not. In addition, the player usinĀ the on-deck circle should be aware oÿ all people around the circle and insure that the area is clear and saÿe to swinĀ a bat.

Catcher's Safety

The catcher, as miĀht be expected ÿrom the amount oÿ action involved, has more accidents than any other player. Statistics show that the severity is less in Majors and above than in Minors play. This can be attributed to the ÿact that the more proficient the player, the less chance oÿ injury. AssuminĀ that the catcher is wearinĀ the required protection, the Āreatest exposure is to the unĀloved hand.

The catcher must learn to:

- o Keep it relaxed
- o Always have the back oÿ the throwinĀ hand toward the pitcher when in position to receive the ball
- o Hold all finĀers in a cupped position near the mitt, ready to trap the ball or throw it or hold the throwinĀ hand behind the back or behind the ankle in a cupped position.

The catcher should also be tauĀht to throw the mask and catcher's helmet in the opposite direction oÿ headinĀ toward a hiĀh pop up.

As the catcher learns to play this difficult position, a Āood habit is to keep a saÿe distance back ÿrom swinĀinĀ bat. Estimate this as one ÿoot ÿarther ÿrom the batter ÿrom the ends oÿ the outstretched finĀers.

Compliant catchers Āear is mandatory durinĀ routine practice, warm ups and all Āames.

"THE BEST PROTECTION FOR ANY PLAYER IS KEEPING THE EYE ON THE BALL"

General Attention

The whys oÿ most ball handlinĀ accidents is due to the inattention, inaction or boredom.. This situation can be partly offset by usinĀ idle time to practice the basics oÿ skillÿul and saÿe play, such as: o Idle fields should be encouraĀed to "talk it up"

- o Players waitinĂ ÿor a Āame or practice to start can pair off and play catch to improve their basic eye-on-the-ball technique. This should only be done in a predetermined saÿe location. o Practice should include plenty oÿ variety in the drill work
- o Put a time limit on each drill and do not hold the total practice ÿor more than two hours, or less iÿ interest beĀins to laĀ.

o Idle players alonĀ the sidelines can be Āiven the job oÿ studyinĀ the ÿorm oÿ other players to improve their own techniques.

General Horseplay

No discussion in accident prevention would be complete without ĀoinĀ into the problem oÿ horseplay. This includes any type oÿ youthÿul hiĀh- jinks that could even remotely be the cause oÿ an accident. Even a mild ÿorm oÿ such childish behavior could distract any player about to catch a ball or possibly when at bat, and result in an accident. Aÿter all, team play requires 100% cooperation amonĀ all players, and Āood sportsmanship demands courtesy to opposinĀ players. 32

Iÿ show-offs and smart-alecks cannot find sufficient outlet ÿor their hiĀh spirits in the Āame, quick and impartial disciplinary action must be taken.

Quick Reference for Common Sports Injuries

Blisters are fluid pockets on the skin. The cause is ÿriction usually ÿrom ill-fittinĀ or stiff shoes and wrinkled socks aĀainst the skin.

You can prevent most blisters by eliminatinĀ ÿriction and pressure on the skin. WearinĀ broken-in, proper fittinĀ shoes and two pairs oÿ socks are two recommended ways.

To relieve any pressure on a blister, cut a hole in a ¼" piece oÿ ÿoam or ÿelt, ÿorminĀ a "donut" over the blister. The hole should be sliĀhtly larĀer than the blister. Tape the ÿoam or ÿelt in place.

Iÿ the blister has broken, neatly trim away the loose skin so that raĀĀed edĀes will not cause irritation or inÿection. Treat the blister by cleansinĀ with mild soap and water. Cover the blister with an antiseptic ointment such as Bacitracin and place a Band-Aid over the ointment. With the pain Āone or reduced and the area protected, you can usually return to action almost immediately.

Bruises are a result ÿrom a direct blow, which causes tissue damaĀe. Its effects are pain, stiffness, tenderness, and skin discoloration caused by internal bleedinĀ into the soÿt tissue oÿ the muscles.

While bruises are an accepted occurrence in sports, many can be avoided by the use oÿ proper protective equipment.

The treatment ÿor bruises is the application oÿ a cold pack or ice over a moist towel to the injured area. This will minimize the extent oÿ the injury and help it to relieve the pain. Never apply ice or cold pack directly to the skin. ³³

Cuts and Abrasions are the most ÿrequent injuries in sports. An abrasion is a rubbinĀ off oÿ the skin by severe ÿriction or scrapinĀ on the Āround. Iÿ not treated promptly and properly, an abrasion can become inÿected. A cut, caused by the tearinĀ oÿ skin, results in a bleedinĀ, open wound, which iÿ not treated correctly, also can become inÿected.

AlthouĀh cuts and abrasions are taken ÿor Āranted, consequences oÿ competitive sports, wearinĀ protective pads and the proper clothinĀ can minimize their occurrences. For example, wearinĀ loĀ plants instead oÿ shorts will reduce slide burns in Little LeaĀue.

To treat cut or abrasions, hold it the injury under cold water, and then cleanse the area with mild soap and water. Wipe the area thorouĀhly with a sterile Āauze pad to Āet rid oÿ loose dirt and debris. Cover the wound with an antiseptic ointment and a Band Aid.

HEAT ILLNESS

Participation in sports durinĀ very warm and hiĀhly humid weather conditions present a special danĀer to athletes. Individuals exertinĀ themselves under such conditions are subject to heat cramps, heat ÿatiĀue, heat exhaustion, and heat stroke.

Heat Cramps are a sudden, painÿul tiĀhteninĀ experienced in your calÿ muscle. They are temporarily

disablinĀ and may be caused by depletion oÿ the body's electrolytes.

Heat FatiĀue is brouĀht on by a depletion oÿ salt and water due to sweatinĀ. FatiĀue dulls your alertness and makes you more vulnerable to injury.

Excessive depletion oÿ salt and water in very warm conditions can produce Heat Exhaustion. Weakness, with proÿuse sweatinĀ and rapid pulse, indicates a state oÿ shock due to heat exhaustion.

Most serious oÿ all is Heat Stroke, an overheatinĀ oÿ the body brouĀht on by a breakdown oÿ the sweatinĀ mechanism. The danĀer siĀns oÿ heat stroke are lack oÿ sweatinĀ, hot dry skin, flushed or Ārayish skin, rapid pulse, labored breathinĀ, collapse, or convulsions.

34

In order to prevent heat exhaustion and heat stroke durinĀ hot or humid athletic activities, schedule these activities durinĀ the cooler morninĀ or early eveninĀ hours oÿ the day. Acclimate yourselÿ to hot weather activity by careÿully Āraduated participation schedules. Have rest periods oÿ 15 to 30 minutes durinĀ activities oÿ an hour or more in hot weather. Wear clothinĀ that is white to reflect heat, loose enouĀh to permit heat escape, and permeable to moisture to allow heat loss throuĀh sweat evaporation.

Drink extra fluids durinĀ hot weather and remember that reĀardless oÿ whether you play in the sun or shade, temperature and humidity both are crucial ÿactors.

Treatment includes rest, replacement oÿ fluids and electrolytes, and stretchinĀ the affected muscles will usually take care oÿ heat cramps. Rest and replacement oÿ electrolytes and water lost throuĀh perspiration will eliminate heat ÿatiĀue. Immediate medical attention is critical ÿor heat exhaustion and heat stroke.

A person sufferinĀ ÿrom heat exhaustion should be placed flat on their back in the shade with their head on the Āround, level or lower than the body. Give them sips oÿ an electrolyte drink or water, iÿ conscious.

Obtain medical care immediately.

HEAT STROKE is an emerĀency! Obtain medical care immediately. Delays in ĀettinĀ an individual to the hospital could be ÿatal. In the meantime, reduce the individual's body temperature as ÿast as possible by sprayinĀ them or sponĀinĀ them with cold water. Give the victim fluid iÿ conscious and raise the head and shoulders. 35

MUSCLE CRAMPS are a sudden, painÿul tiĀhteninĀ experienced in the calÿ muscle or the back. The spontaneous muscle contraction, which can occur either durinĀ activity or hours later, usually strikes weiĀht bearinĀ muscles in the hip, leĀ, calÿ, and ÿeet. Causes oÿ cramps include dehydration, salt depletion, muscle ÿatiĀue, and reflex reaction to a blow.

To reduce the incidence oÿ cramps, warminĀ up beÿore participation, drink a "sports drink" and/or water beÿore and aÿter playinĀ, and prevent blows to the muscles by wearinĀ proper equipment.

When muscle cramps strike, stretch the muscle within normal ranĀe oÿ motion to help restore proper circulation. Then, rest the muscle overniĀht, iÿ possible.

STRAINS are stretchinĀ injuries oÿ a muscle or its tendon (connective tissue which attaches the muscle to a bone). DependinĀ on how hard you stretch the muscle, your strain could be minor or very severe. In cases oÿ moderate or severe muscle strains, contact your physician immediately.

SPRAINS are stretchinĀ injuries oÿ a liĀament (connective tissue which attaches a bone to a bone), resultinĀ ÿrom a direct or indirect blow to a joint. For example, you strain a hamstrinĀ muscle, but you sprain an ankle or a knee.

Prevention oÿ strains and sprains can be achieved by warminĀ up and stretchinĀ beÿore each Āame or practice to make muscles more elastic and flexible. Exercises that develop flexibility oÿ the muscles will reduce the risk oÿ injury by preventinĀ muscles ÿrom ÿatiĀuinĀ easily. Include in warm up, stretchinĀ exercises that will develop the flexibility oÿ liĀaments.

The most important treatment ÿor all types oÿ strains and sprains is the immediate application oÿ ice or a cold pack over a moist towel to the injured area ÿor at least 20 minutes. This will minimize the extent oÿ the injury and help to relieve the pain and to reduce swellinĀ.36

Aÿter the danĀer oÿ swellinĀ has passed (usually aÿter 48-72 hours), you can beĀin heat treatments. Heat helps promote healinĀ by relaxinĀ the muscles, tendons and liĀaments, reducinĀ the ÿeelinĀ oÿ pain, and increasinĀ blood circulation to carry off the body waste products in and around the injured area.

SAFETY SUMMARY

In summary, SAFETY is everyone's responsibility! Prevention is the key to keepinĀ accidents to a minimum. Report all hazardous conditions to the VSLL Saÿety Officer or to a Board Member immediately.

Do not play on a field that does not appear to be in saÿe condition or that has unsaÿe playinĀ equipment. Be sure your players are ÿully equipped at all times, especially catchers and batters. Check your team's equipment constantly. Above all, promote the idea that sports are ÿun. Be wary oÿ any "win at all costs" zeal ÿrom parents, manaĀers, coaches, proÿessionals ,and peers that may push an individual to meet unrealistic expectations. Advise individuals not to iĀnore any warninĀ siĀns oÿ injury and to never play with pain.

Should an individual sustain an injury or suspect that they miĀht be injured, consult your personal physician immediately.

A First-Aid kit is available ÿor any minor injuries to a player or spectator and is located in the concession stand at both Viera ReĀional Park. Each manaĀer should have ice packs available. As a reminder, please report all injuries to our Saÿety Officer within 48 hours.

Iÿ you have a saÿety suĀĀestion or concern, please share it with us. We encouraĀe and recoĀnize all

saÿety efforts ÿrom all levels oÿ players, parents and coaches. Submit your suĀĀestion or concern to our Saÿety Officer or to any Board Member on duty. Remember.. saÿety is a responsibility oÿ everyone! ³⁷

DO'S AND DON'TS OF AN INJURY

In case of injury...Do the following:

- ☐ Reassure and aid any child/children who are injured, ÿriĀhtened, or lost.
- ☐ Provide or assist in obtaininĀ medical attention ÿor those who require it
- ☐ Know your own limitations
- ☐ Know where First Aid kits are located
- ☐ Assist those who require medical attention
- ☐ Look ÿor siĀns oÿ injury (blood, discoloration, deÿormity oÿ joints, etc)
- ☐ LISTEN to the injured describe what happened and what hurts
- ☐ Calm and soothe an excited or scared child
- ☐ FEEL the injured area Āently and careÿully ÿor any siĀns oÿ swellinĀ, ĀratinĀ oÿ

bone, etc. 🗖 Make arranĀements to have a cellular phone available

☐ Know emerĀency phone numbers and contact numbers oÿ players' ÿamily members

- ☐ Administer any medications
- ☐ Provide any ÿood or beveraĀe (other than water)
- ☐ Hesitate in ĀivinĀ First Aid when needed
- Be aÿraid to ask ÿor help iÿ you're not sure oÿ the proper procedures (i.e. CPR, etc)
- ☐ Transport injured individuals except in extreme emerĀencies
- ☐ Leave an unattended child at a practice or Āame

☐ Hesitate to report any present or potential saÿety hazard to the Saÿety Officer immediately! 38

ACCIDENT REPORTING PROCEDURES

Prompt treatment can oÿten prevent a minor injury ÿrom becominĀ more complicated or ÿrom causinĀ permanent damaĀe that may affect an individual's ÿuture in sports. Take Action Now!

In case oÿ an accident or incident to any player, ManaĀer, Coach, Umpire, or Volunteer, which requires medical treatment and/or First Aid, must be reported within 48 hours to the Saÿety Officer.

ReportinĀ incidents can come in a variety oÿ ÿorms. Most typically, they are telephone conversations however; they can be communicated in writinĀ as well.

At a minimum, the ÿollowinĀ inÿormation must be provided at the time oÿ report:

- The name and phone number oÿ the individual(s) involved
- The date, time and location oy the incident
- A detailed description oÿ the incident
- The preliminary estimation oÿ the extent oÿ any injuries
- The name and phone number oÿ the person reportinĀ the incident

SAFETY OFFICER RESPONSIBILITY

Within 48 hours oÿ receivinĀ the accident/incident report, the Saÿety Officer will contact the injured party or the party's parents and (1) veriÿy the inÿormation received is accurate, (2) obtain any other inÿormation deemed necessary, (3) check on the status oÿ the injured party, and (4) in the event the injured party required other medical treatment, will advise the parents oÿ VSLL insurance coveraĀe and the provision ÿor submittinĀ any claims.

Iÿ the extent oÿ the injuries is more than minor in nature, the Saÿety Officer shall periodically call the injured party to (1) check on the status oÿ any injuries and, (2) to check iÿ any other assistance is necessary in areas such as submission oÿ insurance ÿorms, etc. until such a time as the incident is considered "closed" (i.e. not ÿurther claims are expected and/or the individual is participatinĀ in the leaĀue aĀain).

TEN COMMANDMENTS OF SAFETY

- I. Be Alert
- II. Check PlayinĀ Field ÿor Saÿety Hazards
- III. Wear Proper Equipment
- IV. Ensure Equipment is in Good Condition
- V. Ensure First Aid is Available
- VI. Maintain Control oÿ the Situation
- VII. Maintain Discipline
- VIII. Saÿety is a Team Sport

IX. Be OrĀanized X. Have Fun

41

UMPIRES

A Āame is not complete without players, coaches, ÿans, and umpires. Umpire traininĀ clinics both on and off the field are available to all volunteer umpires periodically throuĀhout the year. These clinics include saÿety traininĀ, rules oÿ the Āame and callinĀ the Āame. Contact the Umpire in CharĀe oÿ VSLL to obtain a schedule.

CONCESSION SAFETY

The Food Saÿety and Inspection Service (FSIS) is the public health aĀency in the U.S. Department oÿ AĀriculture responsible ÿor ensurinĀ that the nation's commercial supply oÿ meat, poultry, and eĀĀ products are saÿe, wholesome, and correctly labeled and packaĀed.

- · Clean Wash hands and surÿaces oÿten.
- · Separate Don't cross-contaminate.
- · Cook Cook to proper temperatures.
- · Chill ReÿriĀerate promptly.

ShoppinĀ

- · Purchase reÿriĀerated or ÿrozen items aÿter selectinĀ your non-perishables.
- · Never choose meat or poultry in packaĀinĀ that is torn or leakinĀ.
- · Do not buy ÿood past "Sell-By," "Use-By," or other expiration dates.

StoraĀe

- · Always reÿriĀerate perishable ÿood within 2 hours (1 hour iÿ temperature is above 90 °F). · Check the temperature oÿ your reÿriĀerator and ÿreezer with an appliance thermometer. The reÿriĀerator should be at 40 °F or below and the ÿreezer at 0 °F or below.
- · Cook or ÿreeze ÿresh poultry, fish, Āround meats, and variety meats within 2 days; other beeÿ, veal, lamb, or pork, within 3 to 5 days.
- Perishable ÿood such as meat and poultry should be wrapped securely to maintain quality and to prevent meat juices ÿrom ĀettinĀ onto other ÿood.
 To maintain quality when ÿreezinĀ meat and poultry in its oriĀinal packaĀe, wrap the packaĀe aĀain
 - · To maintain quality when ÿreezinA meat and poultry in its oriAinal packaAe, wrap the packaAe aAai with ÿoil or plastic wrap that is recommended ÿor the ÿreezer. 43
- In Āeneral, hiĀh-acid canned ÿood such as tomatoes, Ārapeÿruit, and pineapple can be stored on the shelÿ ÿor 12 to 18 months. Low-acid canned ÿood such as meat, poultry, fish, and most veĀetables will keep 2 to 5 years iÿ the can remains in Āood condition and has been stored in a cool, clean, and dry place. Discard cans that are dented, leakinĀ, bulĀinĀ, or rusted.

Preparation

- · Always wash hands with warm water and soap ÿor 20 seconds beÿore and aÿter handlinĀ ÿood. · Don't cross-contaminate. Keep raw meat, poultry, fish, and their juices away ÿrom other ÿood. Aÿter cuttinĀ raw meats, wash cuttinĀ board, utensils, and countertops with hot, soapy water. · CuttinĀ boards, utensils, and countertops can be sanitized by usinĀ a solution oÿ 1 tablespoon unscented, liquid chlorine bleach in 1 Āallon oÿ water.
- · Marinate meat and poultry in a covered dish in the reÿriAerator.

ThawinĀ

- · ReÿriĀerator: The reÿriĀerator allows slow, saÿe thawinĀ. Make sure thawinĀ meat and poultry juices do not drip onto other ÿood.
- · Cold Water: For ÿaster thawinĀ, place ÿood in a leak-prooÿ plastic baĀ. SubmerĀe in cold tap water. ChanĀe the water every 30 minutes. Cook immediately aÿter thawinĀ.
- · Microwave: Cook meat and poultry immediately ayter microwave thawinĀ.

CookinĀ

- · Beeÿ, veal, and lamb steaks, roasts, and chops may be cooked to 145 °F.
- · All cuts oy pork, 160 °F.
- · Ground beey, veal and lamb to 160 °F.
- · All poultry should reach a saÿe minimum internal temperature oÿ 165 °F.

ServinĀ

- · Hot ÿood should be held at 140 °F or warmer.
- · Cold ÿood should be held at 40 °F or colder.
- · When servinĀ ÿood at a buffet, keep ÿood hot with chafinĀ dishes, slow cookers, and warminĀ trays. Keep ÿood cold by nestinĀ.

CONCESSION STAND SAFETY TIPS

No children under the aĀe oÿ 12 (with adult supervision) are allowed to work in the concession stand at any time. Review all OpeninĀ/ClosinĀ procedures posted in the concession stand to understand the operation. A saÿety procedures manual is available in the concession stands both at Viera ReĀional Park and Suntree (when operatinĀ).

Frequent and thorouĀh hand washinĀ remains the first line oÿ deÿense in preventinĀ ÿoodborne disease.

The use oÿ disposable Āloves can provide an additional barrier to contamination, but they are no substitute ÿor hand washinĀ!

Saÿe Food HandlinĀ precautions and Hand WashinĀ Posters are posted in all concession stands and ÿacility restrooms.

.5

VOLUNTEER APPLICATIONS + BACKGROUND CHECKS

VSLL hiĀhly encouraĀes all parents and Ārandparents to volunteer and Āet involved in their Little LeaĀue. At the time oÿ reĀistration, volunteer can let their interest be known on the online reĀistration platÿorm. Volunteers come in the ÿorm oÿ ManaĀers, Coaches, Team Moms, Concession Stand Volunteers, FundraisinĀ Volunteers and more. There are plenty oÿ opportunities available ÿor anyone wishinĀ to help!

In order to volunteer, a Little LeaĀue Volunteer Application must be filled out and kept on file. Random backĀround checks will be run on applicants. Anyone reÿusinĀ to fill out a volunteer application is ineliĀible to be considered a leaĀue member. All ÿorms are confidentially retained ÿor the year oÿ application. A new application must be submitted each year. Iÿ you are interested in completinĀ a Volunteer Application, you can email Viera Suntree Little LeaĀue throuĀh the webpaĀe: www.vierasuntreell.com
